

About Yonyou

Founded in 1988, Yonyou has been dedicated to information technology applications and services for enterprises and public organizations. Over 38 years of development, it has become a world-leading vendor of digital intelligent applications and services. In the new era, Yonyou leverages its strategic-level product, YonBIP (Yonyou Business Innovation Platform), to achieve three core values: Agile Business, Lean Management, and Global Operation, empowering enterprises digitalization.

YonBIP provides clients with a business-centric digital foundation. It features the pioneering enterprise service LLM, YonGPT, and the most comprehensive suite of digital services globally. YonBIP serves ten crucial domains, including finance, HR, supply chain, etc. Its services encompass various industries, such as manufacturing, energy, and transportation. It also facilitates business intelligence and operational excellence with "YonBIP Enterprise AI" .

YonBIP is the preferred digital transformation platform for numerous leading enterprises across various industries, and the most frequently chosen domestic replacement for international enterprise application systems. It has supported the digital transformation of 65,000 large and medium-sized enterprises. Furthermore, Chanjet has served 960,000 small and micro-enterprises. Yonyou's client base spans over 40 countries and regions. In line with its global strategy, Yonyou has established 12 overseas branches and a data center in Singapore, strengthening its position as a leading Chinese enterprise software vendor for international business.

According to Gartner and IDC research, Yonyou ranks among the top 10 in ERP SaaS and high-productivity aPaaS markets. It is the only Chinese vendor recognized as an honored enterprise in the HCM Magic Quadrant and the ERP Magic Quadrant. Furthermore, Yonyou has maintained the leading market share in China aPaaS, Chinese enterprise application SaaS, and Chinese large-scale enterprise application SaaS for several consecutive years. Yonyou is accelerating toward its vision of becoming one of the world's top three enterprise software and intelligent services providers.
